

HOE HERSTELLEN NA DWANG?

Internationale perspectieven op hoe patiënten herstellen
van dwangervaringen binnen de geestelijke
gezondheidszorg

19 September 2023

Twee jaar lang deed het Europese onderzoeksnetwerk FOSTREN (<https://fostren.eu/>) onderzoek naar hoe dwang binnensluipt in de GGZ en naar wat professionals al dan niet doen om het gebruik van dwang in te perken. Op deze studiedag presenteren internationale experts het resultaat van deze zoektocht. Ze gaan met de deelnemers in dialoog over hoe het anders kan en bespreken hoe perspectieven vanuit onderzoek, hulpverlening en ervaringskennis gecombineerd kunnen worden. Alle lezingen zijn in het Engels, vragen kunnen in het Nederlands worden gesteld indien gewenst.

Kostprijs: 80 euro (lunch inbegrepen)
